CITY OF LEWSTON.

IN BOARD OF MAYOR AND ALDERMEN, {
March 20, 1905. }

ORDERED, The Common Council concurring, That the Committee on Printing be and is hereby authorized to have printed twelve hundred copies of this year's annual reports of the receipts and expenditures of the last year and included such other reports and public documents as in its judgment it may deem proper, expense of same to be charged to appropriation for printing when made.

Read, passed, and sent down.

J. F. SLATTERY, *City Clerk.*

IN COMMON COUNCIL, {
March 20, 1905. }

Read twice under suspension of the rules, and passed in concurrence.

H. W. LITCHFIELD, *Clerk.*

MAYOR'S ADDRESS.

Gentlemen of the City Council:

I trust that we appreciate the great honor that has been bestowed upon us by being chosen to administer the municipal affairs of our city for the coming year, and also that we fully realize the great responsibilities and the duties that, by our oaths of office, we have this day assumed. A city the size of ours, has many and varied interests to be cared for, requiring a great deal of time and labor upon the part of the members of the city council. Let us therefore give freely both of our time and labor to the end that the city's interest and the city's welfare may be prospered and promoted, thereby meriting the honor and the confidence bestowed upon us by our fellow-citizens. You all are well aware, perhaps, what your duties are, therefore for me to attempt to outline them to you or to show you of what they consist is unnecessary. But this I ask of you,—that each one will give to the city of Lewiston this year, whatever his duties may be, the very best thought and the very best effort of which he is capable, and if this we do, we shall at the close of the year have the consciousness of right endeavor, although we may fail to accomplish all that we desire.

I present for your consideration the following statement of the financial condition of our city at the close of the municipal year February 28, 1905.

FINANCIAL STATEMENT OF THE CITY OF LEWISTON, MARCH 1, 1905.

LIABILITIES.

5 per cent. Bonds due in 1897 not presented.....	\$500.00
5 per cent. Bonds due in 1907 (Water Bonds).....	174,000.00
4 per cent. Bonds due in 1913 (Railroad Bonds refunded)	100,000.00
5 per cent. Bonds due in 1917 (Water Bonds).....	200,000.00
4 per cent. Bonds due in 1923 (Railroad Bonds refunded)	100,000.00
4 per cent. Bonds due in 1924 (War Bonds refunded).....	80,000.00
per cent. Bonds due in 1927 (Water Bonds refunded)....	100,000.00

4 per cent. Bonds due in 1930 (\$26,000 Water Bonds refunded)	\$51,000.00

Net Debt March 1, 1905.....	<u>982,782.25</u>
Reduction for the year.....	\$8,624.37

Concerning our financial affairs, I desire to call your attention to a practice which I deem most vicious. I refer to the matter of holding back bills in the latter months of an administration to be paid by the succeeding administration, for the purpose of making a good financial showing, on paper.

In regard to this custom, I have this to say,—I believe in making the appropriations large enough to meet the expenses of the city economically administered, and then the prompt payment of all bills when presented and properly approved.

There will, of necessity, be a few bills go over from one administration to another, but I wish to see as far as possible, all bills contracted during the coming year, paid by this administration. Pay as you go is as good a rule for the city as for the individual.

At this time I know of no reason for any extraordinary expenditure during the coming year and therefore think our tax rate of twenty mills can be maintained, if not reduced.

SCHOOLS.

The maintenance of the high standing of our public schools shall be the watchword of this administration. Let us allow nothing to interfere with the success and high standing which our public school system enjoys at the present time.

I wish to call your attention to a matter that has already been brought up in the school board, namely, that of holding our caucuses and elections in our public school buildings. I think this is wholly wrong, and earnestly hope that in the future polling places will be provided in which to hold our caucuses and elections other than our school buildings. The reasons for this are so obvious, that it is not necessary to mention them here.

The wisdom of placing the expenditure of the appropriation for schoolhouse repairs in the hands of the school board has, I think, been demonstrated to the satisfaction of all, and to return to the old method would be a step that this administration would not care to take.

POOR DEPARTMENT.

This department is one of the most important of the departments of the city, requiring as it does the outlay of a large amount of money. While I recommend a liberal dealing with our city poor, and would have no one deserving or entitled to aid turned away and made to suffer, yet in justice to the tax-payers of the city, we should not allow ourselves to be imposed upon by applicants for aid who are well able to support themselves, and who should be an aid and a help to the city instead of being a burden and expense to the people among whom they live.

I would also recommend that the Board of Overseers of the Poor keep in closer touch with the clerk of this department than has been the custom in the past, meeting with him as often as possible to discuss and talk over the business of the department and to assume some of the responsibility for the businesslike administration of the affairs of this

important department. The rule in practice at the present time of refusing to allow children to come to this department for city orders unless absolutely necessary is a step in the right direction, and will, I hope, be strictly adhered to the coming year.

In selecting the head of this department the Board of Overseers of the Poor should keep in mind the importance of the position, meaning as it does a saving of thousands of dollars to the city of Lewiston, if a man well qualified and equipped for the post is selected instead of a man who is simply a party man and who has no other qualifications to recommend him for this place. Almost equally important is the position of superintendent of the city farm. A wise selection for these two positions means much to our city.

POLICE DEPARTMENT.

A police force whose personnel is above all suspicion, and one whose one aim is the faithful performance of all their duties, should be the guardians of the lives and property of our citizens. The terms of fourteen members of the department expire this year. The responsibility of the selection of their successors rests on the mayor and aldermen. Let us use in the selection of these men the same care and judgment that we would were we selecting them to watch over our own private interests. Men of character, men of integrity, men in whom the people have confidence should be chosen for these important positions. Other things being equal I believe a man having had experience in the department should be retained, as his experience should be worth much to the city, and not discard him from the fact that he has served one, two or more terms.

The work of this department is of a high order and will, I think, compare favorably with the police departments in other New England cities. May its efficiency and high standing be continued during the coming year.

FIRE DEPARTMENT.

The fire department, under the management of the Board of Fire Commissioners, together with the chief of the depart-

ment and his subordinates, has reached that degree of efficiency that fully warrants the confidence and pride bestowed upon it by our citizens, whom it has served so faithfully and well.

From the report of the chief engineer, I find that during the last year the department has been called out one hundred and fifty-eight times. The value of the property involved in these fires, amounted in round numbers to two hundred and fifty thousand dollars. The total loss on this property was a little less than thirty thousand dollars, showing the prompt and able manner in which the department performs its duties.

During the past year a new hose-wagon has been purchased at a cost of four hundred and thirty-three dollars and fifty cents, also twelve hundred feet of hose at a cost of seven hundred and eighty dollars.

The following recommendations are made by the chief engineer, for the coming year: A permanent team and driver at the hook and ladder house; a permanent team and driver for engine No. 3; a permanent horse and driver for hose No. 2; a fire station located in the vicinity of Frye and Main streets; one in the vicinity of the Sisters' Hospital, and also one on Lincoln Street.

The purchase of three thousand feet of cotton rubber lined hose and also the purchase of a team for the use of the chief engineer of this department. These recommendations are respectfully referred to the Board of Fire Commissioners.

STREET DEPARTMENT.

A year ago the management of the Street Department, comprising the departments of highways, new streets and bridges, permanent streets and paving, permanent walks and sewers, was taken from the City Council and placed in the hands of a commission known as the Board of Public Works. This commission was composed of men of the highest standing among the professional and business men of our city. Upon them devolved the important duty of selecting a super-

intendent of streets, or street commissioner. Their choice was Mr. Charles H. Weymouth of this city, a man of considerable experience along this line of work. As the commission has had but one year in which to demonstrate to the people the wisdom of this change, it perhaps would only be fair and just that those of our citizens who opposed its creation, should withhold their judgment until such a time as the board shall have had ample opportunity to justify the claims made by its friends.

The following extract from the superintendent's report may enable you to gain a slight idea of the work accomplished in this department. The canal bridges on Main, Chestnut and Cedar streets have been thoroughly repaired or built over at a cost of about four thousand dollars and should now be in a condition to last many years. Other bridges throughout the city have also been repaired. About one thousand six hundred feet or nearly one-third of a mile of new sewers have been built. One thousand six hundred and thirty-six square yards of new granite paving have been laid besides the resetting of about one thousand four hundred square yards of old paving. One thousand two hundred tons of crushed stone have been used in the repairing of the streets and the building of eighty rods of new road was made necessary by the building of the Libbey and Dingley dam. Eight thousand five hundred feet of ash walks have been built and eighty hundred and thirty-five feet of granite curbing set.

I wish to call to your attention the advisability of making some permanent improvements on our streets in the residential portion of our city. More or less paving should be done on our business streets every year and I think it would be money well invested to make permanent and beautify some of the streets along the sides of which are built some of our beautiful residences. Possibly we cannot do much any one year but by the outlay of a little money each year, we would soon have our streets in a condition that would be both pleasing and profitable to our citizens. I trust that the

Board of Public Works will take this matter in hand and do a little along this line the coming year. If necessary let us make an extra appropriation for this work.

MISCELLANEOUS MATTERS.

I wish to call your attention briefly to one or two questions not properly classed under any of the several departments.

GRATUITIES.

There has been a growing demand, I am told, upon the municipality for assistance and special favors to persons and to institutions. The demand has come in the shape of requests both for special appropriations and for the use of the city property, either free of charge, or at rates below the actual cost to the city. This has been particularly true of the use and management of this hall, an abuse which has increased from year to year until it has become a by-word and cries out for speedy remedy. I recommend that the proper committees take this matter under consideration at the beginning of the year and fix a schedule of charges which shall be strictly adhered to. When this is done the city council should not interfere with it in individual cases.

PUBLIC FRANCHISES.

Private corporations have from time to time been given valuable rights in our streets free of charge to them, or for very slight returns. It is true that the development of many of these has added to the welfare and prosperity of the city. But it seems as though the time had come when the city should pay less for the use of the property of these corporations for municipal purposes. From the last printed city report I find that almost five hundred and fifty dollars was paid in one year for telephone rentals and tolls and more has been added since the publication of that report. No company should be requested to furnish these telephones in unreasonable numbers but the time has come when the city should and can cease to pay money for this purpose. The

annoyance and inconvenience of the wires overhead and the constant digging up and disturbance of the streets should be sufficient compensation for such benefits as the city derives from these for municipal purposes.

I recommend that all contracts where rentals of this sort are paid by the city be cancelled. It is no longer necessary. The license last granted to a telephone company to enter this city provides for all the telephones required for municipal purposes free of charge. Unless other arrangements can be made it will be no insuperable inconvenience for the city officials to do without these instruments which are now used at public expense.

Before closing allow me to call your attention to a very important and what may prove to be a very serious matter if prompt and vigorous steps are not taken at once for the protection of our city. I refer to the threatened invasion by the brown tail moth. I suggest that such action as you may deem wise and sufficient be taken at the earliest opportunity.

Gentlemen, asking your indulgence for all mistakes that may arise through my inexperience, and pledging you my hearty co-operation in the work of the coming year, let us now enter upon these duties with the one purpose of so conducting the municipal affairs of this city that at the close of the year our administration shall have been an honor and a credit to the fair city in which we live.

WILLIAM E. WEBSTER, *Mayor*.

CITY OF LEWISTON.

To the Honorable City Council of the City of Lewiston:

Gentlemen: I have the honor to submit herewith a detailed report of the receipts and expenditures, together with the appropriations, for the year ending February 28, 1905, a schedule of city property and a statement of the resources and liabilities of the city.

I have audited the accounts of the several Tax Collectors and the City Liquor Agent, and have properly credited all amounts paid into the City Treasury.

Respectfully submitted,

FRANK H. HOLMAN,

Auditor of Accounts.

IN BOARD OF MAYOR AND ALDERMEN, }

REPORT OF WATER COMMISSIONERS.

*To the Honorable Mayor and City Council of the City of
Lewiston, Me.:*

The Water Commissioners herewith present to your Honorable Board their twenty-fifth annual report for the fiscal year ending February 28, 1905.

The receipts and expenditures during the year are as follows:

DR.

Cash on hand March 5, 1904,	\$60 82
Received since on running expenses,	43,042 78
Received since on construction account,	77 27
	<hr/>
	\$43,180 87

Bills receivable Feb. 28, 1905:

Construction account,	\$3 93
Running expense,	38 60
Water account, 1904,	1,747 16
Water account, quarter ending April 1, 1905,	2,172 41
	<hr/>
	\$3,962 10

CR.

Cash paid Treasurer T. F. Callahan:	
On running expense,	\$43,100 00
On Construction account,	77 27
Cash on hand, Feb, 28, 1905,	3 60
	<hr/>
	\$43,180 87

1904-1905.

Paid Treasurer T. F. Callahan on running expense,	\$43,100 00
Cash on hand, Feb. 28, 1905,	3 60
Bills receivable on running expense,	3,958 17
	<hr/>
	\$47,061 77

1903-1904.

Paid Treasurer T. F. Callahan on running		
expense,	\$42,595 29	
Cash on hand March 5, 1904,	60 82	
Bills receivable on running		
expense,	3,263 74	
	<hr/>	\$45,919 85
Increase over last year,		\$1,141 92

1904-1905.

Paid Treasurer T. F. Callahan, cash and bills		
receivable as above,		\$47,061 77
Salaries, labor and bills on account		
of running expense,	\$13,602 00	
Interest account,	29,740 00	
	<hr/>	\$43,342 00
Net profit for the year,		<hr/> \$3,719 77

To show the earnings of this Department add \$8,590.00
for water furnished the City.

The Water Department furnishes water for the various City Departments for which we receive no credit, as follows:

Hydrants,	\$7,160 00
Street Department,	316 00
City Parks,	37 00
Armory,	10 00
Schools,	911 00
Fire Department,	114 00
Public Library,	32 00
Board of Health,	10 00

This makes a total of \$8,590 00

We have paid the City Treasurer over \$500.00 more than any previous year, as may be seen by financial report.

The abatements this year amount to \$829.60, an increase of \$72.55 over last year.

Following will be found the reports of the Auditor and Superintendent, also various tables and the water rates and rules and regulations.

Respectfully submitted,

F. L. HOYT,
JOHN B. SMITH,
CHARLES H. OSGOOD,
WILLIAM D. PENNELL,
GEORGE POTTLE,
WILLIAM B. SKELTON,
A. D. BARKER,

Water Commissioners.

IN BOARD OF WATER COMMISSIONERS, }
March 4, 1905. }

Read, accepted, and sent forward.

E. F. JACKSON, CLERK.

WATER WORKS AUDITOR'S REPORT.

This certifies that I have personally examined the accounts of Edward F. Jackson, Clerk of the Lewiston Water Commissioners.

I find them to be accurately kept. The entries under the several headings of faucet rates, meter rates, repairs and construction appearing in their respective places.

The entries on Cash Book are correctly cast and entered on the Register. The abatements made have been properly entered and signed by the Committee.

I find the amounts paid over to City Treasurer T. F. Callahan to correspond with vouchers therefor and the cash on hand to agree with the balance as entered.

E. L. R. HUNT, *Auditor.*

Lewiston, Me., March 4, 1905.

REPORT OF SUPERINTENDENT OF WATER WORKS.

*To the Honorable Board of Water Commissioners of the City
of Lewiston:*

Gentlemen—I have the honor of submitting the annual report of the Superintendent of Water Works for the year ending February 28, 1905.

The running expenses show an increase over the preceding year on account of extensive repairs on the pumping machinery, cleaning the reservoir and repairs on the pipe line to Lake Auburn. This account is for all labor as shown by the monthly pay-rolls, which include salaries of Superintendent, Clerk and Engineers at the pumping station, for all stock and tools and supplies used in maintenance, repairs and renewals and is shown in annexed tables. The Auditor's report will show a detailed statement.

The pumping machinery is in a more satisfactory condition than it has been for years. New plungers and bushings were fitted to the Deane pumps, adding much to their efficiency. Quite extensive repairs were made on the wheel which drives the pumps.

The Board having consulted with various experts in regard to changes needed to improve the power of the plant, it was decided to accept the plans of the Holyoke Machine Company to improve the power end of the Worthington pumps. New pinion gears, pillow boxes and bed blocks were set and other repairs made at a total expense of \$2,000. This is included in the running expense account. The results are quite satisfactory and the Worthington pumps are doing good work for machinery that has been on duty over twenty-five years.

The buildings at the station need painting on the outside and the tin roof should be replaced or repaired. The store house will also need new sills and shingling the coming season. The fence ought to be repaired or replaced. The outside racks and wood work should be renewed; also the gates that control the flow from the river to the conduits and wheel pit. The efforts that have been made to stop the leaks through the outside walls of the wheel pit have not been

entirely successful. More should be done. The inside racks and wood work in gate house should be renewed and repaired. Automatic sprinklers and other appliances for fire service have been installed in the station at an expense of \$370.00.

The main pipe lines and gates in the city are in good condition. Some of the wooden gate boxes will have to be renewed on account of age. Thirteen large and eight small boxes have been replaced this year. The roofs covering the pipe lines on the bridges will need repairs this year. The two very severe cold winters with great depth of frost may be the cause of the increased number of leaks which have occurred. There have been 4 leaks on main pipe lines in the city, 5 on imperfect service pipes, 8 on rusted service pipes and 23 in lead connections. There have also been extensive repairs necessary on the lake pipe line at an expense of \$639.00. All of these repairs were charged to running expense account. Service boxes have been inspected and changed to conform to curbing set and grade changed in sidewalks. Thirteen services of $\frac{3}{4}$ -inch pipe have been relayed with 1-inch galvanized pipe. This indicates that nearly all of the old services have been changed. Construction has called for 17 new services of 1-inch, 1 of $1\frac{1}{2}$ -inch and one of 2-inch pipe. Two hydrants have been added. 1734 feet of 6-inch, 470 feet of $1\frac{1}{2}$ inch, and 1850 feet of 1-inch pipe have been laid, making a total of 4,054 feet of all sizes laid this past season.

We are supplying one drinking and two ornamental fountains, a continuous flow during the season, and seven water troughs are furnished a continual flow the year round and kept in repair without credit or returns to this department. There has been an addition of ten miles to the main pipe lines and 300 families, 954 closets, 500 baths and 328 hose in the last ten years.

The reservoir was thoroughly cleaned out in June, the paving reset around the top of the embankment and new timbers were set and new floor laid in the gate house. The entire expense of this was charged to running expense account. This amounted to \$543.36. The fence around the reservoir will need some repairs and a stiff coat of paint this season. Owing to the severe cold weather a fire has been necessary part of the time with more frequent attention than most seasons to prevent ice forming in the gate house. The driveway around the lot could be improved, also the line fence next the Farwell Estate by a slight addition to the running expense account.

Meters have been installed where equitable returns were

not received for water used or where an unusual or unnecessary waste was allowed to exist. In all cases the results were such as to justify the policy of the Board in continuing the placing of meters in order to reduce the pumping, increase the income and discourage useless waste. \$113.27 has been expended in repairs on old meters in use, and \$165 for new meters. All this was charged to running expense. Cold weather endangers the water pipes on many premises where no thought is given as to the effect of frost on the location of plumbing. The result is frozen pipes or running water. Plumber's bills are saved at the expense of this department. Meters placed on these exposed premises to reduce this continuous flow to dollars and cents is much more effectual than calls from the water inspector. The combined experience of all water works officials is that the use of meters is indispensable to control the supply.

Two hydrants have been added to the plant this year making 179 now in use for fire service. One was set on Ware Street 600 feet from Main Street and one on Warren Avenue 700 feet from Eastern Avenue. These fire hydrants are expected to be in order at all times, free from ice and snow in winter and ready for immediate use. They are no income but increase the running expense for labor in caring for them and expenditure for supplies and repairs. An appropriation should be made for repairs if the yearly rental is to be abated. The usual inspections have been made and they appear to be in good order. The use of hydrants should be confined to fire purposes and for no other use except in cases of most urgent necessity. One hydrant on Park Street was reseated, one on Middle Street had top replaced and frost jackets have been lowered and drains cleaned out on several. All are flushed twice or more each year.

The net income of this plant is not so much as some others owing to the rates being much less. In the 4,000 closets at \$1.50, the 1,000 baths at \$2, the income figures \$8,000. This could be increased to \$15,000 and still compare favorably with the lowest in the state. A further comparison of other fixtures would be favorable to the consumer. The net income of the plant is transferred by law to the interest account of the debt incurred in securing the power for pumping and later used for street lighting in addition.

The plant should be credited with power and housing for the fire whistle machinery. Various public institutions, charitable and otherwise, are supplied with water on very favorable terms to the consumer and at no profitable income to the producer.

WATER WORKS AUDITOR'S REPORT.

This certifies that I have personally examined the accounts of Edward F. Jackson, Clerk of the Lewiston Water Commissioners.

I find them to be accurately kept. The entries under the several headings of faucet rates, meter rates, repairs and construction appearing in their respective places.

The entries on Cash Book are correctly cast and entered on the Register. The abatements made have been properly entered and signed by the Committee.

I find the amounts paid over to City Treasurer T. F. Callahan to correspond with vouchers therefor and the cash on hand to agree with the balance as entered.

E. L. R. HUNT, *Auditor.*

Lewiston, Me., March 4, 1905.

REPORT OF SUPERINTENDENT OF WATER WORKS.

*To the Honorable Board of Water Commissioners of the City
of Lewiston:*

Gentlemen—I have the honor of submitting the annual report of the Superintendent of Water Works for the year ending February 28, 1905.

The running expenses show an increase over the preceding year on account of extensive repairs on the pumping machinery, cleaning the reservoir and repairs on the pipe line to Lake Auburn. This account is for all labor as shown by the monthly pay-rolls, which include salaries of Superintendent, Clerk and Engineers at the pumping station, for all stock and tools and supplies used in maintenance, repairs and renewals and is shown in annexed tables. The Auditor's report will show a detailed statement.

The pumping machinery is in a more satisfactory condition than it has been for years. New plungers and bushings were fitted to the Deane pumps, adding much to their efficiency. Quite extensive repairs were made on the wheel which drives the pumps.

The Board having consulted with various experts in regard to changes needed to improve the power of the plant, it was decided to accept the plans of the Holyoke Machine Company to improve the power end of the Worthington pumps. New pinion gears, pillow boxes and bed blocks were set and other repairs made at a total expense of \$2,000. This is included in the running expense account. The results are quite satisfactory and the Worthington pumps are doing good work for machinery that has been on duty over twenty-five years.

The buildings at the station need painting on the outside and the tin roof should be replaced or repaired. The store house will also need new sills and shingling the coming season. The fence ought to be repaired or replaced. The outside racks and wood work should be renewed; also the gates that control the flow from the river to the conduits and wheel pit. The efforts that have been made to stop the leaks through the outside walls of the wheel pit have not been

The total amount of water pumped for the year 1904 as measured by the revolutions of the crank shaft without allowance for slip is 1,589,106,250 gallons; a decrease of 168,453,405 from 1903, which is an averagedaily decrease of 461,512 gallons from 1903. The consumption is still far beyond a liberal estimate as compared with other cities of like situation. A gradual adoption of the meter system is the only available preventative to check waste and illegal use until the time arrives when the users and the public shall recognize that water from the city mains is merchandise as much as milk, ice, coal or any commodity, that there is an established price for it and the amount is limited for the price paid. The expense of obtaining and delivering this unusual amount of water adds to the running expense of the plant and decreases the income.

Tables annexed will show classification of water supply, pumping record, location of mains extended, valves set and annual and monthly expenses and also the yearly expenses from 1880 to the present time. Following will be found number of relays and new services, location and size of meters, inventory of stock and tools, location of hydrants and the water rates, rules and regulations of the Water Board for the water taker and the public.

The men under my direction are commended to your favorable notice. To the Clerk of the Board I express my thanks for assistance at all times. In closing my report I wish to thank each member of your Honorable Board for the courtesy and consideration extended to me in the discharge of my duties.

Very respectfully submitted,

CYRUS M. LUNT, *Superintendent.*

FIXTURES AND TOOLS.

1 crab	\$20 00	1 wire line to reservoir . . .	\$60 00
1 ditch derrick	35 00	Office furniture	228 00
3 sets blocks and falls . . .	22 00	Moulding patterns	36 00
1 ditch pump	60 00	4 pipe jointers	33 00
1 6-inch tapping machine . . .	350 00	3 hand force pumps	24 00
1 $\frac{3}{4}$ -inch tapping machine . . .	163 00	400 lbs. steel drills	45 00
1 clock	5 00	40 feet 3 inch hose	40 00
4 chairs	4 00	2 tool boxes	10 00
1 gas lamp and table	2 25	13 S wrenches	30 00
40 oil cups	20 00	10 service wrenches	10 00
1 cross-cut saw	3 00	4 tapping wrenches	3 00
1 wood saw	1 00	4 tunnel chisels	6 00
2 hand saws	1 50	1 pair ice tongs	1 25
1 hack saw	1 25	1 pair shears	50
1 axe	1 00	11 wheelbarrows	15 00
1 level	1 00	100 feet rope	10 00
1 bit stock	2 00	3 gate wrenches	21 00
1 scythe	1 00	8 dies	16 00
1 steel rake	50	6 die stocks	36 00
1 lawn mower	4 00	4 cutters	8 00
1 grindstone	5 00	3 lanterns	3 00
2 screw drivers	1 00	150 feet jacket hose	105 00
1 seal press, seals and cards .	12 00	100 feet $\frac{3}{4}$ -inch rubber hose . .	12 00
1 stock chest	4 00	4 oil tanks	13 00
1 chain fall	40 00	10 oil cans	2 00
2 snatch blocks	7 00	10 shovels	10 00
1 electric battery and wires . .	39 00	15 picks	15 00
1 telemeter	200 00	2 ditch shovels	2 00
1 fire alarm gong	50 00	3 dog chisels	4 50
6 strike hammers	6 00	15 hoes	7 00
4 caulking hammers	6 00	2 face hammers	3 00
1 hand hammer	1 00	5 pairs rubber boots	15 00
1 sledge hammer	1 50	6 counter bores and drills . .	12 00
10 caulking tools	2 55	2 ratchet stocks	16 00
20 cutting-out tools	4 00	1 ratchet brace	7 50
3 ice pick poles	1 50	3 vises	9 00
10 brooms	4 00	4 jack screws	10 00
3 monkey wrenches	3 00	5 ladders	9 00
8 pairs pipe tongs	8 00	2 ditch augers	6 00
5 drill spoons	2 50	1 pair callipers	1 50
2 chains	4 00	6 cold chisels	1 50
2 pinch bars	2 00	1 paving hammer	75
2 crown bars	2 00	7 hydrant spanners	5 00
2 mark irons	50	1 gasket cutter	1 50
1 ice chisel	2 00	7 pipe taps	14 00
2 dip nets	3 00	2 tap pedestal boxes	5 00
4 pounders	3 00	Lumber	10 00
1 paving rammer	6 50	2 Stilson wrenches	6 00
4 jacket lamps	80	4 Wakefield wrenches	10 00
1 hand pump	5 00	1 tape line	1 50
1 fish net	2 00	1 rubber coat	4 00
1 rain jacket	1 50	1 rain hat	1 00
1 hatchet	1 25	1 bush scythe	1 00
2 paring chisels	1 75	1 rabbit plane	75
1 square	50	1 fore plane	50
1 nail hammer	50	1 stove and funnel	20 00
1 pressure gauge	5 00		

STOCK.

12 stop and wastes, 1 x 3-4	\$18 00	1 6x6 gate	\$21 00
6 stop and wastes, 1 x 1 . .	10 25	1 16-inch gate	84 00
38 corporation cocks . . .	30 00	1 14-inch gate	62 00
14 curb cocks	21 00	1 12-inch gate	42 00
4 lead connections	6 60	1 10-inch gate	32 00
Tees, bushings and nipples	15 00	1 8-inch gate	20 00
Service caps, plugs and		2 6-inch gates	24 00
sleeves	50 00	16-inch pipe and sleeve .	48 00
Ells, unions and couplings	30 00	4 lengths 10 and 14-inch pipe	55 00
6 inch special castings . .	87 00	14 lengths 8-inch pipe . .	98 00
1 24 x 16 Y casting	120 00	240 feet 6-inch pipe . . .	96 00
Pipe and special castings	3,300 00	3 lengths 4-inch pipe . . .	12 00
1 24-inch ell	80 00	960 feet 2-inch pipe . . .	160 00
1 20-inch gate	196 00	2000 feet 2-inch pipe : . .	140 00
1 18-inch gate	121 00		

SUPPLIES.

125 cogs and keys, main gear,	\$37 50	1 14-inch gate spindle, . .	\$12 00
250 cogs, bevel gear, . . .	75 00	5 8-inch gate spindles, . .	35 00
400 lbs. lead	20 00	5 4-inch spindles,	5 00
3 2-inch Gem meters	100 00	1 strap for crank,	40 00
1 3-inch Gem meter	80 00	1 brass box for crank . . .	20 00
2 ¾-inch Thompson meters	25 00	2 strap forgings,	6 00
1 1-inch Nash Meter	15 00	1 strap cross head,	16 00
1 ¾-inch Niagara meter . . .	5 00	4 brass box cross heads . .	50 00
1 3-inch Union meter	75 00	1 crank shaft	300 00
2 2-inch Union meters . . .	40 00	Cotton waste	2 00
1 ½-inch Crown meter	25 00	Rubber packing	30 00
3 1-inch Crown meters . . .	60 00	1 Chapman hydrant	33 00

24 rubber valves	12 00	1 barrel white oil	17 50
4 water glasses	3 00	Lumber	8 00
Wheel repairs	45 00	4 tons coal	30 00
5 gallons castor oil	5 50	2 Deane plungers and bush-	
Hemp packing	4 00	ings second-hand	100 00
2 24-inch gate spindles . . .	45 00	3 ½-inch steel shafts . . .	18 00
1 16-inch gate spindle . . .	15 00	18 valves, 24 buffers and 24	
1 12-inch gate spindle . . .	10 00	rubber rings for Worth-	
2 6-inch gate spindles . . .	6 00	ington pump	50 00
1 18-inch gate spindle . . .	20 00		

LOCATION OF HYDRANTS.

Section 16. Any person who shall injure any public pipe or reservoir connected with the Lewiston Water Works, or who shall break and enter the same, or draw off, or cause to be removed any water therefrom, or shall turn off or on the water in any such water pipe or reservoir, or shall make any opening or connection with such pipe or reservoir, or remove the cover of any hydrant, except in case of fire, without the license or permit of the Water Commissioners, or by authority of the Mayor and Aldermen, or Chief Engineer of the Fire Department, shall forfeit and pay for each offense not less than three nor more than twenty dollars.

Use of hose is restricted to before 9 A.M., and after 4 P.M.

When hand hose is attached to inside faucets the same amount to be charged as when connected with sill-cock, 2 00

When parties use hand hose connected with sill cock for other purposes than sprinkling, they shall pay regular faucet rates, in addition.

Two or more families using the same water-closet shall pay per annum,	1 00
Sewing machine, family use,	3 00
Steam boilers, for heating private dwellings, to be paid in October quarter,	1 00

Parties paying for use of hand hose may use the same for washing carriages, if they wish.

In no case shall any party have the use of water for any purpose, for less than the price of one faucet, 5 00

Families using water for domestic purposes, complaining of exorbitant rates, may, when consuming 200 gallons daily, apply for meter measurements by paying for meter and connections, and shall be subject to the following rates:

For daily use of 200 to 300 gallons—per 100 gallons,	\$0.02 $\frac{1}{2}$
For daily use of 300 to 500 gallons—per 100 gallons,	.02 $\frac{1}{4}$
For daily use of 500 to 1,000 gallons—per 100 gallons,	.02

AGGREGATE RATES TO FAMILIES.

In no case is the annual charge for the use of water to a private family to exceed,	\$20 00
For each family, with a stable and four animals, or less, the charge shall not exceed per annum,	25 00
For each family with stable of four (or less) animals, and hose for stable and grounds (use of hose, size of nozzle, area watered, etc., limited as in preceding items), the charge shall not exceed, per annum,	30 00
For private fire-plugs, to be used only in case of fire, no charge to be made.	

ANNUAL PUBLIC RATES.

Public wash-basins, each,	\$5 00
Public urinals, each,	5 00
Public pan water-closets, or self-acting hopper closets,	5 00
Public hopper water-closets, not self-acting,	10 00
Public baths, each,	5 00
Public drinking fountain,	6 00
Public fire hydrants,	40 00
Bakeries,	8 00 to 15 00
Sewing machines, in stores,	7 00
Brick-makers, per 1,000 bricks made,	03
Stores, ordinary uses, not including jet or fountain,	5 00 to 10 00
Baths, urinals, and water-closets, in store and offices, each,	3 00
Dining-room, or saloon, not including jet or fountain,	5 00 to 15 00
Jet or fountain additional,	3 00
Public watering-troughs,	25 00
Jet or fountain additional for hotels or other offices,	3 00
Professional and agency offices,	5 00 to 10 00
Photographic galleries, where meters are not used,	8 00 to 15 00
Barber shops, each chair,	2 50
Livery and public stables, not exceeding ten horses, each horse,	1 50
Each additional horse,	1 00
Use of hose, each hose,	75

BUILDERS' WATER RATES.

The cost of service pipe for building purposes will be charged and must be paid in advance.

Water for each cask of lime or cement,	\$0 05
Water for other purposes connected with constructions, per barrel,	03
Water carts, street sprinkling, per 1,000 gallons, 20c, or special rates.	
For steam engines, each horse power to 20, working not more than twelve hours, per day,	3 00
Each additional horse power,	2 00

METER RATES.

Water for motive power or mechanical purposes will be furnished at the following rates, same to be paid quarterly:

For daily use of 200 to 300 gallons—per 100 gallons,	\$0.02 $\frac{1}{2}$
For daily use of 300 to 500 gallons—per 100 gallons,	.02 $\frac{1}{4}$
For daily use of 500 to 1,000 gallons—per 100 gallons,	.02
1,000 to 1,500 gals., daily consumption, per annum,	50 00
1,500 to 2,000 gals. do., per annum,	60 00
2,000 to 2,500 gals. do., per annum,	75 00
2,500 to 3,000 gals. do., per annum,	95 00
3,000 to 4,000 gals. do., per annum,	109 20
4,000 to 5,000 gals. do., per annum,	128 50
5,000 to 7,000 gals. do., per annum,	140 40
7,000 to 10,000 gals. do., per annum,	159 12
10,000 to 15,000 gals. do., per annum,	175 50
15,000 to 20,000 gals. do., per annum,	218 40
20,000 to 25,000 gals. do., per annum,	245 70
25,000 to 30,000 gals. do., per annum,	257 40
30,000 to 40,000 gals.,	2 $\frac{7}{8}$ cts. per 1,000 gals.
40,000 to 50,000 gals.,	2 $\frac{3}{4}$ cts. per 1,000 gals.
50,000 and upwards,	2 $\frac{1}{2}$ cts. per 1,000 gals.

Special and unusual supplies rated on application.

METER RENTALS.

$\frac{5}{8}$ - and $\frac{3}{4}$ -inch meter,	\$2 00 per annum
1-inch meter,	3 00 per annum
1 $\frac{1}{2}$ -inch meter,	4 00 per annum
2-inch meter,	6 00 per annum
3-inch meter,	8 00 per annum
4-inch meter,	12 00 per annum

PLUMBING.

Be it ordained by the City Council of the City of Lewiston, as follows:

SECTION 1. No plumbing shall hereafter be done on any pipes or fixtures for the use of water from the City Water Works, unless by a plumber licensed by the Board of Water Commissioners of said city. Said Board of Commissioners are authorized to grant and revoke licenses.

SEC. 2. Every plumber who shall set up any pipes or fixtures for the use of water from said City Water Works, or shall make repairs upon, additions to, or alterations of any pipes or fixtures set up previous thereto, shall, within eight days after the same shall be completed, fill up and return to the Superintendent a report describing all fixtures, both old and new, for the use of water on the premises.

SEC. 3. For any misrepresentation or omission in the report of the work done, said plumber shall be liable to suspension or to have his license revoked by said board, and to pay a fine of not less than five or more than twenty-five dollars to be recovered in an action of debt, in the name of the Water Commissioners or City Treasurer, before the Municipal Court of said city.

SEC. 4. Water from the Lewiston Water Works will be supplied hereafter only to pipes and fixtures that have been set up and completed or examined and tested by a plumber licensed by the Water Commissioners, and which have been fully enumerated and described in a report made by said plumber to the Superintendent, and approved by him or his Inspector.

SEC. 5. If any *plumber or person* not duly licensed, shall set up any pipes or fixtures for the use of water from the Lewiston Water Works, or make any repairs upon, additions to, or alterations of any pipes or fixtures previously thereto set up, he shall forfeit and pay a sum of not less than five, nor more than twenty-five dollars, to be recovered by complaint, or in an action of debt in the name of the Water Commissioners or the City Treasurer, before the Municipal Court of said city.

Finally passed and approved by City Council March 15, 1881, and March 22, 1893.

SPECIAL RULES AND REGULATIONS.

In all cases where the water is turned off at the request of the owner, or agent of the property, a charge of fifty cents shall be made, which amount must be paid before the water is turned on.

No discount will be made for vacant tenements or premises unless notice is given at the time of vacancy and the water is shut off. In case two or more takers are supplied by the same service pipe, seals will be attached to the fixtures not in use.

No charge will be made for water for extra persons above the limited number in family rates, in one and the same family—but in Boarding Houses and consolidated families, extra will be charged to the amount of fifty cents to each person above this limit of seven (7) persons.

No water-motor shall be attached to any of the water pipes, without permission of the Water Board, and the Superintendent is authorized and instructed to shut off the water at once on premises where any violation of this rule occurs.

No person or persons using city water for motive power, shall sublet power to other parties.

No abatement will be allowed on vacant tenements, unless the tenements have been vacant two months or more. The vacancies for a less time of several tenements in the same building, owned by the same person, are not to be added together to make the requisite time (two months or more) for abatement.

All persons using meters are holden responsible for all damage to said meters occasioned by neglect, misuse, or freezing, and the Superintendent will cause printed slips to be placed upon all meters to this effect.

When bills are due and not paid within the limited time, the water shall be turned off for non-payment, unless the bills are under consideration by the Committee on Rates and Abatements.

NEW SERVICES.

Pipe bills and water bills must be paid before the water is let on.

SEC. 9. The following regulations shall be considered a part of the contract with every person who takes the water, and every such person, by taking the water, shall be considered to express his assent to be bound thereby. They shall

be printed upon every bill for water rent, and whenever any one of them is violated, the water shall be cut off from the building, or place of such violation, although two or more parties may receive the water through the same pipe, and shall not be let on again, except by the order of the Water Board, and on payment of two dollars; and in case of any such violation the said Board shall have the right to declare any payment made for the water by the person committing such violation, to be forfeited, and the same shall thereupon be forfeited.

REGULATIONS.

First. All persons taking water shall keep the service pipes within their premises, including any area beneath the sidewalk, in good repair and protected from frost at their own expense; and they will be held liable for all damages which may result from their failure to do so.

Second. They shall prevent all unnecessary waste of water, and there shall be no concealment of the purpose for which it is used.

Third. No alterations shall be made in any of the pipes or fixtures inserted by the city, except by its agent, who are to be allowed to enter the premises supplied, to examine the apparatus, and to ascertain whether there is any unnecessary waste.

Fourth. No water is allowed to be supplied to parties not entitled to the use of it under the city ordinances, unless by special permission.

Fifth. The Clerk and Superintendent with the necessary agents and assistants, may enter the premises of any water taker to examine the quantity used and the manner of use, and to cut off the water for non-payment of rents or fines, or any violation of the foregoing rules.

SEC. 10. The occupant of any premises, when an unnecessary waste of water occurs, shall be liable to a fine of two dollars for the first offense and four dollars for the second offense during the same year, and shall be notified thereof in writing, and if such waste shall not be prevented and the fine aforesaid paid within two days from the time when said notice was given, the water shall be cut off from the said premises, and shall not be again let on until the waste be stopped and a fine paid, together with an additional sum of two dollars for cutting off and letting on the water; and in case of a third or subsequent offense, the water shall be cut off, and shall not again be let on, except by a vote of

the Board and the payment of such fine, not exceeding ten dollars, as the Board may impose.

SEC. 11. The commissioners shall have power to establish such regulations as they may deem expedient for the introduction and use of water; and the water shall not be supplied to any building unless the pipes and fixtures shall be made conformable to said regulations.

SEC. 12. The water rates shall be fixed by the Commissioners, subject to the approval of the City Council.

SEC. 13. Any person considering his water rates excessive, may apply to said Board for a meter, to be set at his expense, and the amount of his rent may be determined thereby; and said Board may cause a meter to be attached to any premises where they have reason to believe that an unnecessary or fraudulent use of water is being made, and may assess rates upon such premises thereby.

SEC. 14. All water rates, except for building purposes, meter rates, lawn and street sprinklers, shall be due and payable at the office of said Board, quarterly, in advance, on the first day each of January, April, July and October. Meter rates will be due and payable at the same place, on the first day of the succeeding quarter; and the rates for garden, lawn, and street sprinklers will be due and payable in advance, at said office on the first day of April and July of each year.

The City Ordinance, as adopted July 1, 1889, read under Sec. 10, Plumbing Laws XII.:

“Water-closets supplied with water otherwise than from a tank with flush pipe of at least 1 $\frac{1}{4}$ -inch shall only be used with special permission of the Board of Health.”

REPORT OF CHIEF ENGINEER FIRE DEPARTMENT.

LEWISTON, March 20, 1905.

To the Board of Fire Commissioners:

I have the honor to submit my report as Chief Engineer of the Fire Department for the municipal year just ended. It will contain as in the past what has been accomplished by the Department during the year, and the general condition of the Department.

MANUAL FORCE.

The manual force of the Department remains the same as last year as far as numbers are concerned.

The force may be classified as follows: Permanent men, one Chief Engineer, one Superintendent of Fire Alarms, one driver for Hose No. 1, one hose man for Hose No. 1, one driver Chemical No. 1, one tank man Chemical No. 1, one pipe man Chemical No. 1, and fifty-four call-men.

CASUALTIES.

One death has occurred in the Department during the year, Moses Chick, driver of Engine No. 4, died, Oct. 14, 1904, of paralytic shock. Also one serious accident. On going to a fire, September 6, in response to alarm from box 38, John McCarty, hose man, Hose No. 1, was run over by Ladder Truck No. 1, and seriously injured.

PROPERTY LOSSES.

I beg to append herewith a summary of the property involved in fires together with the losses thereon.

Total value of property involved in fires, on	
which claim for loss is made,	\$246,235 58
Total insurance thereon,	136,633 00
Total losses,	29,874 80

ALARMS.

There has been a slight decrease in the number of alarms since my last report. The number with their classification appears in the following table:

Box alarms,	57
Telephone calls,	88
Still alarms,	9
Chief's calls,	4
	—
Total,	158

There were 46,500 feet of hose laid by the Department at fires during the year; 3,027 gallons of chemicals used; 1560 feet of ladders used, and the distance travelled aggregated 166 miles.

BUILDINGS.

There have been no changes made in the buildings during the year, and they are in fairly good condition; but again I call your attention to the fact that they are in need of painting.

APPARATUS.

A new hose wagon has been purchased this past year to take the place of the old No. 1 hose wagon, which is to be used as an exercising wagon, so that the apparatus is as follows:

- Two steam fire engines.
- Three hose wagons.
- Two hose reels.
- Four hose pungs.
- One exercising wagon.
- One aerial hook and ladder truck.
- One hook and ladder truck.

All this apparatus is in good condition with the exception of Engine No. 3, which is in need of repair, and the old exercising wagon, which has been condemned.

FIRE ALARM SYSTEM.

There have been no changes made in the system during the past year.

HOSE.

Twelve hundred feet of cotton, rubber lined hose, have been purchased the past year.

As I asked last year for the purchase of four thousand feet and but twelve hundred were purchased, I repeat the recommendation by asking for the purchase of three thousand feet this year. We have 12,750 feet of hose on hand in different stages of value, and which may be classified as 5,000 feet of good; 4,850 feet fair; and 2,900 feet in very poor condition.

HORSES.

There are seven horses owned by the Department and are in good condition with the exception of one, of Hose No. 1. This horse is lame and should be replaced by another.

RECOMMENDATIONS.

The recommendations which I here bring to your attention are those which I consider most necessary to increase the efficiency of the Department, and are in a great measure the repetition of those which have been given in the past, but we feel by constantly calling your attention to these changes you will be led to see the necessity of action. I would recommend a permanent team for the use of the Chief Engineer of the Department, also a permanent team and driver for Engine No. 3, Central Fire Station, Ash Street. A permanent horse and driver for Hose No. 2 at Central Fire Station, a permanent team and driver for Ladder Truck No. 2, Park Street station. I feel the efficiency of the Department would be enlarged by Fire Stations in other parts of the city and I would recommend one to be located in the vicinity of Main and Frye Streets, one in the vicinity of the Sisters' Hospital, also one on Lincoln Street.

I would also recommend a three-horse hitch for Engine No. 3, Engine No. 4, Chemical No. 1, and Ladder No. 2, to be used in hard travel. There should be three new fire alarm boxes, one corner of Skinner and Wood Streets, one corner of Ash and Howe Streets, also one on Wood Street, near New High School Building. I would also recommend the purchase of a new hose pum to replace the old one now used by Hose No. 2.

The buildings need some repairs and I would recommend the placing of hardwood floors in the sleeping rooms and bath room of the Central Fire Station, Ash Street. The painting of the engine rooms of the Central Fire Station and the painting of the interior of Park Street Fire Station.

The purchase of three thousand feet of cotton rubber-lined hose and one set of swinging harnesses for Hose No. 1 to replace those now in use, which are in poor condition.

CONCLUSION.

In closing I desire to express to the officers and members of the Department my appreciation of the earnest and faithful manner in which they have performed their duties, and to you, gentlemen of the Board of Fire Commissioners, my sincere thanks for the interest manifested in the affairs of the department.

Respectfully submitted,

M. J. MORIARTY, *Chief.*

FIRE DEPARTMENT FOR 1905.

BOARD OF FIRE COMMISSIONERS.

Chairman, W. S. Keene; Secretary, J. F. Pickering; W. P. Leonard, J. H. Voyer, W. B. Skelton, Mayor.

Chief Engineer—M. J. Moriarty.

First Assistant—John J. Ryan.

Second Assistant—M. P. McGillicuddy.

Third Assistant—John A. Bibber.

Fourth Assistant—A. W. Maillette.

Superintendent of Fire Alarms—F. R. Whitney.

Inventory of Property in Engineer's Room, Park Street Station.

One desk, 7 chairs, 1 cuspidor, 1 waste basket, 1 set record books.

Property in Chief Engineer's Office.

One desk, one office chair, one table.

CHEMICAL ENGINE NO. 1.

<i>Name.</i>	<i>Rank.</i>	<i>Residence.</i>
P. W. Leonard.	Tankman.	Ash Street.

REPORT OF SUPERINTENDENT OF FIRE AND POLICE ALARMS.

*To the Honorable Board of Fire Commissioners of the City of
Lewiston:*

Gentlemen—I have the honor to submit herewith my fifteenth report for the year ending February 28, 1905.

The full number of alarms received at the Ash Street Engine House was 178, of which Lewiston had 57 bell alarms, 4 chiefs calls, 85 telephone and 9 still alarms; total, 155.

Auburn had 17 bell alarms and 6 chiefs calls; total, 23.

There have been no permanent improvements made during the year, but the heavy sleet storm made it necessary to run new wire in a number of places and this year there is a number of miles that ought to be rebuilt as it is getting old and unreliable.

For permanent improvements I would again call your attention to the very great danger of having the whole of our fire alarm system in two circuits; every trouble we have had with the boxes registering wrong has been traced to that cause, and I would again recommend your investigating the offer of the Gamewell Company made last year, as it would make our system first-class and not cost any more to maintain than it does now.

I would again recommend that signal boxes be placed in the following locations: One at the corner of Wood and Skinner, one at the corner of Ash and Howe streets, and one near the Jordan High School building.

There should also be signal boxes placed in City Hall and the Empire Theatre, so in case of accident or fire the department could be instantly called.

The following is a list of apparatus, wires, tools and materials under my care.

In Lewiston—One three-circuit repeater, 41 signal boxes, 2 engine house gongs, 2 engine house indicators, 1 stop clock and register combined, 2 door openers, 3 strong current protectors, 5 galvanometers, 3 switch boards with switches complete, and 236 cells of storage battery, 1 tower bell striker, 1 2,000-lb. bell, 1 compressed air whistle plant, 14

mechanical gongs, 1 emergency electric light switch, 100 glass jars and about 30 miles of line wire.

In Auburn—23 signal boxes, 1 engine house gong and indicator combined, 1 indicator and vibrating bell combined, 1 tower bell striker, 2 door openers, 10 mechanical gongs, 1 automatic cut out, and about 15 miles of line wire.

The private mill circuit consists of 5 signal boxes, 1 engine house gong, 10 mechanical gongs in residences, and 7 miles of line wire.

The police system consists of a 7-circuit central office apparatus, a bell and register for the stable, 11 street signal boxes, 13 set of Bell telephones, 68 jars of battery, 6 miles of line wire and 3 sets of private line telephone instruments belonging to the fire department.

TOOLS AND MATERIALS.

Four ladders, 1 set digging tools, 1 hatchet, 1 draw-shave, 1 hammer, 1 hand saw, 1 wrench, 1 soldering torch, 2 hand baskets, 3 brick drills, 1 anglebit brace, 12 iron brackets, 6 iron pins, 125 standard glass insulators, 5 porcelain circuit breakers, 25 porcelain knobs, 6 ball circuit breakers, 100 wooden pins, 500 feet of rubber-covered wire, 50 porcelain cleats, 10 porcelain bushings and 2 miles of iron line wire.

In closing this report I wish to thank the board of Commissioners, the Chief and Board of Engineers, officers and members of the Department for their help and kindness to me in the discharge of my duties in the Department.

F. R. WHITNEY, *Superintendent.*

REPORT OF INSPECTOR OF WIRES.

To the Honorable Board of Mayor and Aldermen of the City of Lewiston :

Gentlemen—In accordance with the requirements of the city Ordinances I herewith submit my annual report of Inspector of Wires for the year ending February 28, 1905.

During the year I have inspected 109 buildings wired for lights and power.

The number of lights and power motors installed is approximately as follows: 1,351 16-candle power lamps, 14 arc lamps and 135 horse power in motors.

In addition to the above I have located a large number of poles for the Electric Light and Telephone Companies, and inspected the line work and find that all the companies are doing better work every year.

I wish to call your attention to the rules regulating the poles in the streets. As they are now every company can have a line of poles on every street in the city. It is wrong and there should be an ordinance passed that would compel all telephone companies to use the same poles and all light and power companies to use the same poles where the voltage used does not exceed 2,200 volts.

Respectfully submitted,

F. R. WHITNEY,

Inspector of Wires.

FINANCIAL REPORT OF SCHOOL DEPARTMENT.

To the Honorable Mayor and City Council:

Gentlemen—The School Board, agreeable to the duty prescribed for them, present the following report of receipts and expenditures for the fiscal year ending February 28, 1905, and recommendations for the coming year.

GENERAL SCHOOL DEPARTMENT.

RECEIPTS.

Appropriation for common schools,	\$31,000 00	
School fund and mill tax,	21,901 86	
Free High School, from State,	250 00	
By cash (tuition, etc.),	317 88	
By errors on bills, Nos. 770, 1482, and 2576,	271 74	
	—————	\$53,741 48

EXPENDITURES.

Salaries of teachers,	\$38,766 76	
Salary of superintendent and secretary,	1,899 96	
Salaries of city janitors,	3,620 36	
Salaries of rural janitors,	351 56	
Books,	1,309 60	
Supplies,	2,001 18	
Fuel,	3,136 65	
Printing,	495 60	
Insurance,	212 50	
Census,	178 86	
Transportation of pupils,	195 00	
Unclassified,	1,572 06	
Balance undrawn,	1 39	
	—————	\$53,741 48

MANUAL TRAINING DEPARTMENT.

Appropriation,	\$1,300 00	
Expenditures,	1,248 07	
Balance undrawn,	51 93	
	—————	\$1,300 00

SCHOOL-HOUSE REPAIRS.

Appropriation,	\$1,800 00	
By cash,	1 02	
Expenditures,	1,801 02	
	<hr/>	\$1,801 02

We respectfully recommend that the sums of \$32,000 for the General School Appropriation and \$1,200 for the Department of Manual Training be appropriated for the coming year. We respectfully represent that in view of necessary expenses of each department these sums are the least possible amounts consistent with an efficient administration of them. The request for appropriation for annual repairs will be made as soon as the needs can be investigated for report.

G. P. EMMONS,
D. J. CALLAHAN,
L. G. JORDAN,

The Committee on Finance.

The preceding report of receipts and expenditures for the fiscal year 1904-1905, and the request for an appropriation of \$32,000 for the General School Department and \$1,200 for the department of Manual Training were accepted, adopted and ordered sent to the City Council.

Attest:

I. C. PHILLIPS,

Secretary School Board.

March 14, 1905.

REPORT OF OVERSEERS OF THE POOR.

To the Honorable Mayor and City Council:

According to custom I submit a brief report of the Poor Department for the year ending February 28, 1905.

Herein will be found a statement of the monthly expenditures of this department, a record of the number of persons and families that have been helped, the cost of supporting the insane patients, and also the orphans at Healy Asylum and at the Hospital Annex, and of maintaining the City Farm.

The entire cost of this department has been 29,166.70.

Appropriation for 1904-5,	\$25,500 00	
Receipts from City Farm,	528 36	
Receipts from outside towns, etc.,	2,114 44	
Transfers,	3,666 70	
	<hr/>	\$31,809 50
Expenditures,		31,715 75
		<hr/>
Balance undrawn,		93 75

The monthly expenditures are as follows:

March,	\$8,151 62
April,	2,624 53
May,	3,000 64
June,	3,145 07
July,	1,971 28
August,	1,649 26
September,	2,628 12
October,	1,667 86
November,	2,075 87
December,	1,679 65
January,	2,488 81
February,	633 04

Total expenditures,	\$31,715 75
---------------------	-------------

The receipts are made up of funds received from other cities and towns for the support of their paupers who have been helped by us while in this city, and from sundry persons

for the support of relatives at the Insane Hospital, and from produce raised and sold from the City Farm.

Bills contracted during the previous administration to the amount of 9,126.40 were paid by us, leaving the actual appropriation 20,040.30. This together with the receipts of the year 2,642.80, made a total of 22,683.10 to be expended on the poor for this year.

The expenditures are classed as follows:

Outside poor,	\$12,903 26
City Farm,	6,531 85
Insane Hospital,	6,546 51
Patients at city hospitals,	643 57
Old soldiers' board,	1,849 18
City orphans,	3,241 38
	<hr/>
	\$31,715 75

OUTSIDE POOR.

Under this head are included all persons who have received supplies of groceries, fuel, rent, board, shoes, medicine, etc., exclusive of City Farm, Insane Hospital, Healy Asylum, Hospital Annex, and the board of old soldiers. During the year 246 families and 974 persons of this class have been helped. The number of families and persons helped each month is as follows

	Families.	Persons.
March,	126	390
April,	107	315
May,	83	237
June,	84	251
July,	81	228
August,	80	223
September,	79	229
October,	83	228
November,	97	275
December,	105	290
January,	103	295
February,	104	288

MAINE INSANE HOSPITAL.

There are twenty persons at this institution belonging to Lewiston.

OLD SOLDIERS.

As previously shown, the sum paid for board of old soldiers is \$1,849.18. Besides, many families of this class are receiving aid in their homes.

In closing, I take this opportunity of expressing my thanks to the Police Matron, Mrs. Mitchell, for many courtesies extended and for her generous assistance, to Mr. Kennedy for his hearty co-operation, and to City Solicitor Mr. McCarty for counsel and advice upon matters of importance.

Respectfully submitted,

R. DRESSER,

Clerk of Overseers of Poor.

IN BOARD OF MAYOR AND ALDERMEN, }
March 20, 1905. }

Report accepted and ordered placed on file.

J. F. SLATTERY, CITY CLERK.

IN COMMON COUNCIL, }
March 20, 1905. }

Report accepted and placed on file in concurrence.

H. W. LITCHFIELD, CLERK.

REPORT OF SUPERINTENDENT OF CITY FARM.

To the Honorable Board of Overseers of the Poor:

Gentlemen—I herewith respectfully submit the following report of the City Farm and Almshouse for the year ending February 28, 1905.

The general health of the inmates has been excellent during the past year. The number of deaths has been six, and the names of the deceased are as follows:

Charles Rundlett, died May 5, 1904.

Daniel Boyd, died May 31, 1904.

Mary Allen, died October 1, 1904.

Edward Hinkley, died November 25, 1904.

Samuel Hyde, died January 27, 1905.

Mary Bossey, died January 27, 1905.

There have been three births during the year, two girls and a boy.

The whole number of inmates was 72, of which six died. The total number at the farm at present, including births and new arrivals, is sixty-nine.

The crops have been unusually good this year. We had about 2,000 bushels of potatoes, 80 tons of hay, 300 bushels of oats, 150 tons of ensilage, corn, 8 tons of straw, 900 bushels of turnips, 400 bushels of beets, 300 bushels of carrots, 5 tons of squash, 5 tons of pumpkins, 50 bushels of beans, 30 bushels of tomatoes, 5,000 cucumbers, 6,000 heads of cabbage, 25 bushels of green peas, 50 bushels of string beans, 50 barrels of apples.

Improvements made on farm during present year:

A house built over the spring well that supplies water for the house. Also bought a boiler of 110 gallons capacity for cooking food for the hogs and cattle. This was a much-needed improvement. Built a house over this boiler a short distance from the house, so there is no danger of fire. Also bought a new hay rack as the ones here were not fit to use. Bought a new mowing machine, a new double horse sled and a new horse. Also a set of runners for a single dump sled. I built a new piggery under the old barn making a dry, clean place for the hogs and convenient to the house.

We have plowed twenty acres of land that is new manured and ready for spring. We have carried about 600 loads of dressing so far.

Through the courtesy of Mr. Bean, agent of the Androscoggin Mill, I got all the cotton waste of the mill, with no expense to the city, which gave us all the dressing necessary for the farm.

I have two thousand feet of oak lumber sawed in four-inch planks, and five thousand feet of lumber (pine) sawed in one-inch boards, which will be very useful to the farm.

There are one thousand loads of dressing under the barn for future use. This gives plenty of dressing for the farm.

At the request of the Mayor, we have taken charge of these roads with no expense to the city.

The returns of the farm this year to the City Treasurer have been five hundred and twenty-eight dollars and thirty-six cents, with receipts for every dollar.

In my report I will say, I took charge of the farm when there was no produce here for either inmates or the cattle. I had to buy it all, also the seed which we planted. This year there is produce enough on hand to carry them to the next harvest.

In conclusion, I wish to thank the Mayor and the Board of Aldermen, as Overseers of the Poor, for their kindness and advice to me during my term of office. I also extend my sincere thanks to Mr. Rendall Dresser, for his kind help and assistance, also City Marshal Wing and Deputy Marshal Leader, who never failed to give help when asked for it. I also wish to thank Mr. T. F. Callahan for his advice and assistance.

Respectfully submitted,

JOHN J. KENNEDY,

Superintendent of City Farm.

REPORT OF CITY SOLICITOR.

LEWISTON, ME., March 14, 1905.

To the Honorable City Council:

I beg to submit my report as City Solicitor for the municipal year just ending. During my term all cases that were pending on my assumption of office have been settled, leaving but new entries for my successor. Suit had been commenced by the City against the Inhabitants of the Town of Pownal, but owing to the disappearance of material witnesses, the same never came to trial, and was eventually entered neither party. This was a suit for supplies furnished a pauper whose residence was claimed by the city to have been in the Town of Pownal.

The actions now pending against the city are those of Hanley vs. Lewiston, a suit founded on a claim for damages due to a defective sewer; Howard vs. Lewiston, a similar suit; Haskell vs. Lewiston, a suit brought for professional services rendered a pauper resident; Union Water Power Company et als. vs. City of Lewiston et als.; and The Union Water Power Company vs. City of Lewiston. The suit of Haskell vs. Lewiston, is one in which the Inhabitants of the Town of Turner are the real defendants inasmuch as the pauper to whom the services rendered has his pauper residence in that town. The first mentioned suit of the Union Water Power Company is an action in equity in which the City of Lewiston is concerned so far as the question of its priority rights to the use of water power granted it under its two indentures with the Union Water Power Company and the Franklin Company. The suit at law brought against the City by the Union Water Power Company is for diversion of water for which damages are claimed in the sum of Ten Thousand Dollars. As both of these cases are of very great importance it was deemed advisable that additional counsel be engaged for the purpose of defending them. By authority of the City Government, the services of Judge Foster have been retained and these matters will soon be heard.

Much of my time for the past year has been occupied in prosecuting criminal cases of all degrees before the Municipal Court. And it may now be proper in leaving this office to question the propriety of making, as a part of the City

Solicitor's duty, that of attendance upon this Court for that purpose. It is eminently proper that violations of the City Ordinances should be prosecuted by the Solicitor, but it is difficult to reason why the City of Lewiston should ask its paid official to perform other work which is distinctly in the line of the County Attorney's duties for which he is elected and for which he is paid. There is no question but that every County Attorney for this county would prosecute these cases willingly, but under the unwise provisions of our ordinances and the conditions contained in the annual legacy bequeathed in the Salary Resolve, this burden is very generously taken from him and placed upon the shoulders of the City Solicitor, thus making that individual pose as an example of the city's charity to the State by paying him for work that the State is already paying others to perform. It is to be hoped that some action may be taken towards restricting the duties of this office to municipal affairs alone, and if this be done, and if the business of the past two years is any criterion by which we may judge of that of the future, it is safe to say that there will be plenty of opportunity in that field to engage the time and attention of the City Solicitor.

It may also be proper to suggest a word in connection with the salary of this office. Fascination for public office never yet has, nor probably never will, produce a dearth of applicants, so that it may be fair to assume that candidates will never be found wanting to fill this place. Regardless of that, however, labor should have fair compensation, and when one considers the amount of work required and performed by the City Solicitor, one must realize that the salary is ridiculously small. It is to be hoped that my successors in this office will be remembered in the next salary resolve with an increase commensurate with the worth of their labors.

Respectfully submitted,

GEORGE S. McCARTY,

City Solicitor.

REPORT OF CITY MARSHAL.

To the Honorable Mayor and Board of Aldermen :

Herewith is submitted the report of the business of the Police Department for the year ending February 28, 1905. The total number of arrests was 965 for the following causes:

Intoxication, 749; assault and battery, 53; bastardy, 1; breaking, entering and larceny, 11; larceny, 31; evading fare, 4; search and seizure, 5; manslaughter, 2; highway robbery, 1; using abusive language, 1; vagrancy, 13; violating billiard hall rules, 1; murder, 1; fraudulently voting at caucus, 1; embezzlement, 1; illegal fishing, 2; fornication, 2; setting fires in streets, 2; suspicious persons, 7; gambling, 15; keeping gambling rooms, 4; assault on officers, 4; assault with intent to kill, 3; criminal assault, 1; disturbance at theatre, 7; beating board bill, 2; desertion from U. S. Army, 5; distributing obscene pictures, 2; nuisance, 9; breaking jail, 1; malicious mischief, 2; rape, 2; accessory to rape, 1; forgery, 1; streetwalking, 2; insanity, 3; affray, 2; street affray, 5; transporting game illegally, 1; threatening violence, 3.

The disposition of these cases was as follows: Not prosecuted, 91; delivered to out-of-town officers, 20; paid fines and costs, 277; paid costs only, 54; committed to county jail by order of court, 386; sentences suspended, 52; discharged by order of court, 27; ordered to recognize to State, 36; committed to bench warrants, 2; nol prossed, 7; appealed, 14; committed to insane hospital, 1.

The miscellaneous business was as follows: Stores and other buildings found open, 141; fires discovered, 9; fire alarms rung, 8; calls for patrol wagon, 240; stray children cared for, 67; stray teams found, 39; dangerous places reported in streets, 53; notices served, 392; electric lights found out, 64; intoxicated persons sent home, 176; disturbances suppressed, 62; electric wires found burning, 1; amount of property recovered, \$1,683.35. The patrol was run 592 miles. The number of meals furnished prisoners was 1,461. The number of complaints recorded at headquarters was 464. These were all investigated.

The personnel of the department is as follows:

City Marshal—Henry A. Wing.

Deputy Marshal—Richard F. Leader.

Captain of Night Watch—Maxime Beaulieu.

Patrolmen—Edwin Batley, Andre Beliveau, Charles Crowley, Edmund F. Fahey, Amide Gendron, James Gauthier, Patrick J. Hamilton, Leslie H. Haywood, Michael T. Harkins, Adolph Jalbert, L. J. Lamontaigne, John P. Leonard, T. F. Minnehan, John R. Malia, Richard McGee, Martin O'Maliar, Marcelin Rancourt, Louis P. Snow, John Shea, Wallace W. Tuttle, Joseph Verville, Timothy J. Walsh, George Wilding.

Special Officer James Nolan has acted as patrol driver during the year. No regular man was appointed for the other patrol driver, and one of the regular officers was detailed for this purpose.

The expense of running the Department was \$21,541.51. I received during the year for public carriage licenses, telephone messages, meals, and miscellaneous items, \$95.16, which has been paid to the City Treasurer. On account of an accident which happened to the patrol horse, it was necessary to procure another, which was done at an expense of \$175. A new patrol punga has also been bought.

While there have been very few serious crimes during the past year, there has been an unusual amount of business for the Department. The officers have cheerfully performed their duties, and there has been no friction or trouble of any nature.

The equipment of the Department is in excellent condition, and very little in this direction will be required the coming year. The card system of filing photographs of criminals has been adopted, and is proving to be a great improvement. More complete records of the work of the department are now kept than ever before, and all documents pertaining to the business of the Department are properly filed and indexed. Mayor Skelton has taken an active interest in all the work and improvements in this department, and to his assistance and good judgment much is due.

I would renew the recommendation so many times made, that a padded cell should be provided. The necessity for this increases each year. Provision should be made, if possible, for a better patrolling of the residential part of the city during the night. This is a matter to which I would

specially call the attention of the Mayor and Police Committee, and I wish it might receive their early consideration.

For valuable assistance rendered, thanks are given to Hon. Adelbert D. Cornish, Judge of the Municipal Court, and to the Recorder of the Court, Clarence V. Emerson.

Respectfully submitted,

HENRY A. WING, *City Marshal.*

REPORT OF SUPERINTENDENT OF HACKS.

To the Honorable Mayor and Board of Aldermen:

Herewith is submitted my report as Superintendent of Hackney Carriages. There were 51 licenses granted. Four licenses were revoked but subsequently two of the parties were reinstated. The money received from licenses and carriage numbers has been paid to the City Treasurer. A committee should be appointed by the Mayor to consider the advisability of a revision of the ordinances governing the licensing of hackney carriages and the rates to be charged. It might be found advisable to make a distinction between the regular hacks and the so-called ten-cent carriages. Complaints are made that people are told that they will be carried to points in the city for ten cents, but that the regular rates established by the city are charged. This is a species of misrepresentation, but is one which the Licensing Board and Superintendent of Hacks have no power to correct.

Respectfully submitted,

HENRY A. WING,

Superintendent of Hacks.

REPORT OF BOARD OF HEALTH.

To the Honorable City Council:

The Board of Health herewith presents its annual report for the year 1904-5. On September 6th, the organization of the Board of Health was effected as follows:

Chairman—Dr. W. H. Hawkins.

Secretary—Vital Gilbert, Jr.

A. E. McDonough was chosen as fumigator in all cases of contagious diseases, including consumption, whenever a death from this disease should be reported to the Board.

Chas. P. Dearborn was elected plumbing inspector for the remainder of the year.

Since the Board was organized, September 6, we had nine cases of scarlet fever and nine cases of diphtheria. The house of each of these patients has been fumigated, and quarantined until the attending physician notified the Board that all danger of contagion was past; when it was again fumigated, and the inmates allowed their freedom.

A large number of nuisances have been abated during the past year, but a multitude still remain, which should be attended to the coming year.

Several property owners have been ordered to connect their buildings to the sewer, and most of them have complied with the rules of the Board.

The work of the Inspector of Plumbing has been thorough and impartial in all cases.

VITAL GILBERT, JR., *Secretary.*

WILLIAM H. HAWKINS, M.D., *Chairman.*

H. W. LITCHFIELD, CLERK

CITY PHYSICIAN'S REPORT.

To His Honor, the Mayor, and Members of the City Council:

I herewith submit to your honorable body my report as City Physician for the year 1904-1905:

Calls at private houses,	397
Calls at Office,	308
Calls at Almshouse,	15
Calls at Police Station,	23

12 patients have been examined for supposed insanity, 10 have been declared insane and sent to the Insane Hospital.

I have attended two cases of fracture: One of the leg, the other of the arm.

I have been called to attend four confinement cases, two in the city proper and two at the almshouse.

In my opinion it is very improper to send such cases to the Poor Farm, unless a trained nurse shall attend the patient. In spite of the good will of the Superintendent's wife, it is impossible for her to give proper care to the patient, therefore her life is in great danger. I would recommend that a suitable place be built or secured for the sick inmates. Better treatment then could be given to each with less expense of time.

I would recommend that a padded cell should be arranged at the police station, as it is very unsafe to keep insanes in the present women's cell.

I desire to thank all the city officials for their courtesy, especially the Clerk of the Overseers of the Poor, Mr. R. Dresser; the Superintendent of the Farm, Mr. J. J. Kennedy and the Police Matron, Mrs. Etta Mitchell, who has been a Providence to the poor families.

Respectfully submitted,

J. L. GAGNON, M.D., *City Physician.*

REPORT OF POLICE MATRON.

To the Honorable Mayor and Board of Aldermen of the City of Lewiston:

Gentlemen—I beg leave to submit a report of a small part of the work done by the Police Matron for the year ending February 28, 1905, this being my seventh annual report in this capacity. Much of the work is of a kind that it would not be proper to make public; but I have reported daily at the offices of the City and Deputy Marshals and Police Station and have performed any duties required of me; have visited and tried to help all female prisoners, having persuaded many of them to sign a temperance pledge, which I trust some of them have kept; also have induced many boys and men to sign the pledge, furnishing a printed card which they carry; have sent several cards into jail which were signed, and, I trust, kept. I have tried to do all I could for wayward girls, but until we have a Reformatory, I see little hope for some of them. I think a Reformatory for women is Lewiston's greatest need. The Rescue Home, carried on by Miss Morrison, has been very helpful in my work. It has been a haven for many and they are tenderly cared for and encouraged to lead a better life.

I have always endeavored to carry as much cheer and comfort as possible into sick rooms and cheerless homes, and as many delicacies and flowers as my purse and garden would allow.

The past year has been very trying for poor people. The severe cold winter, scarcity of work for men, in many cases, and sickness, intemperance, and shiftlessness in others. Then, Lewiston having so good a reputation abroad, many poor people come here from other states and countries, thinking they will find friends and employment. In a short time they call on the Poor Department for food and fuel and on the Police Matron for clothing and a place to work, while many deserving poor of our own city suffer and will not ask for help nor accept it as paupers. It is then the Police Matron needs assistance. I have often emptied my purse, borrowed money for them, and carried provisions from my home to supply their immediate wants. I find by

so doing they often take courage, find work, and are "all right" in a short time.

In former years the Relief Society aided in such cases, giving groceries, coal, wood, new shoes, new and second-hand clothing, bedding and other things. This year I have missed that, although I have given out about 800 pieces of clothing, furnished by them before they disbanded.

In August, through the kindness of the L. B. & B. Street Railroad, about 500 poor children were given a ride and outing at Lake Grove, with a picnic dinner provided by the good people and successfully carried out by many able assistants. The children were invited to attend the vaudeville, which they greatly enjoyed. A week later 70 of the Social Settlement children were given an outing at Merry-meeting, with a treat furnished by the Directors of the Settlement, who accompanied the children. I sent several children into the country during the summer vacation, which was very beneficial and enjoyable, both to the children and to the people who took them.

Thanksgiving the young people of Bates Street Baptist Church, as is their custom, invited forty-five of the poorest children I knew to a supper in their church vestry, which was greatly enjoyed and will never be forgotten by those present. Many others were invited into private families to dinner.

The children were not forgotten at Christmas. I issued no tickets, neither had trees, but had a "Box Festival," placing each child's gift in a box. Through the generosity of the State Grange, which met here, and others in the city and other towns, I was enabled to do more than ever before for the poor. I gave 600 gifts of clothing, more than 1,000 toys, books and games, and money to many who needed it to buy food, medicine, fuel, shoes, and to pay rent. I think it was the happiest Christmas of my life, I had so much to do with. There are some who never forget the poor at Thanksgiving and Christmas time, but some generously remembered them the past year who never did before, thus proving that "the world is growing better."

During the year I have found temporary homes and boarding places for many children, eleven of whom have been legally adopted into good homes—making sixty-one during the seven years of my work. This I consider the best work I have done, as most of them were orphans or forsaken.

I have written 686 business letters, most of them at home, frequently sitting up all night in order to get them written; distributed 16,923 articles of clothing, besides hundreds that were not counted (not having had time); also beds, bedding, carpets, rugs, furniture, loads of good literature and other useful things. I have been unable to make as many calls as heretofore, as the people come or send to the office. I have found employment for 148 men, women and children and could have placed as many more could I have secured the women.

I have visited the hospitals, Young Women's Home, Social Settlement, Rescue Home, and Healy Asylum, all of which are doing good work.

In closing I tender my thanks to the city government for kindness; to Clerk of Courts C. V. Emerson, who has been of great help to me; to the L. B. & B. Street Railroad Company for free pass and many other kindnesses; to the Marshal and Deputy and all other officers, who have always been courteous and kind to me; to the Overseer of the Poor, Mr. Dresser, who has always been willing to help me; to the 23 cities and towns which have sent me barrels, boxes and parcels, and especially to the press, the greatest helper of all, which has made my wants known, and to all who have helped me in any way.

Respectfully submitted,

ETTA MITCHELL, *Police Matron.*

Balance transferred to city debt,		2 87
		<hr/>
		\$5,500 67

The work may be briefly summarized as follows: The Library was open 305 days; 783 book borrowers were registered; 58,350 volumes were circulated for home use and 1,672 volumes were added to the Library.

The 1672 accessions were acquired as follows: 1383 by purchase, 184 by gift and 105 by binding periodicals. 207 volumes were withdrawn, 18 lost and one burned by the Health Officer, making a net gain of 1,447 volumes.

The purchases for the year have been made from the best of the current publications. Several important additions have been made to the Reference Department, namely:

New International Encyclopedia, 17 volumes.

Standard Dictionary, last edition, 2 volumes.

Lippincott's Biographical Dictionary, 2 volumes.

Lippincott's Gazetteer.

Index to Poetry and Recitations, Granger.

Irish Literature, 10 volumes.

Since the opening of the Library in 1903, 12,012 volumes have been accessioned, 290 volumes have been lost and discarded, which leaves 11,722 volumes now in the Library.

CATALOGUING.

The work of cataloguing the Library was begun in June, 1904, by Miss Evelyn L. Gilmore. This work has pro-

gressed as rapidly as possible and it is expected that the main catalogue will be completed and ready for use by the end of May. The work has been done under difficulty, as at no time has the circulation of any section of the Library been suspended.

REGISTRATION.

Seven hundred and eighty-three new names of book borrowers were registered. In January of this year a new system of registration was inaugurated. All cards are now issued for three years. Already 905 have re-registered. Upon the new application a second card for non-fiction is issued to those desiring it. In the two months 307 non-fiction cards have been issued. The total number of card holders is 5,021.

CIRCULATION.

During the year 58,350 volumes were borrowed for home use, making a monthly average of 4,871, and a daily average of 188. Adult fiction comprised 68 per cent, young people's literature, mostly fiction, 21 per cent., and general literature 11 per cent of the total circulation.

The amount received from fines, damaged books and lost cards is \$254.24.

YOUNG PEOPLE'S ROOM.

The total number of volumes circulated for home use from the Young People's Room was 12,752, an average of 42 a day.

The room has been filled every day after school, and on Saturdays to such an extent that it has been necessary to ask the older boys and girls to take their books to the reference room.

REFERENCE AND READING-ROOMS.

The most encouraging feature of the year's work has been the ever-increasing use that has been made of these rooms. The reading-room has 78 of the leading periodicals on file and six newspapers. The bound volumes of the periodicals are in constant use by the Bates College and High School students. A large number of volumes from the stacks are used each day in connection with reference work.

It has been greatly regretted that it has been necessary to carry on the work on the catalogue in the reference room, as it has caused more or less confusion, but this has not pre-

vented a large amount of important and useful work being done in the room. There is no other room that can be used to advantage for this work.

The Library has received the following gifts, which we have gratefully acknowledged.

The general condition of Library affairs is better than ever before, and the Librarian, Miss Sarah E. Osgood, and her able assistants, Misses Tracy and Little, have given the patrons of the institution most excellent service, and their work has been very satisfactory to us.

During the year three young ladies have taken advantage of the opportunity afforded by the Trustees to fit for assistant service, and we are thereby given a reserve force to call upon when occasion requires. These three young ladies are Miss Elinor Sands, Miss Ethel D. Ham and Miss Ruth Tucker. All who thus fit themselves for this duty are required to give one month's service, for which no compensation is allowed, after which they receive pay for services rendered when called upon.

It is the intention of the Board of Trustees to secure the most desirable literature for the reading public, and they will fully appreciate any and all efforts that may be made to assist them in obtaining titles of valuable and useful books.

It is a great source of satisfaction that we are able to invest a fairly liberal amount each year for the addition of

good literature, and we congratulate the public on the degree of success we have been able to meet with.

It will be noticed that the amount of funds received for fines does not appear in the financial statement above. It has been the practice of the Trustees to deposit these special amounts in the Savings Bank, to be used hereafter to secure publications to replace those worn out by use, and whenever there is a demand for changes along these lines the funds will be used for this purpose.

IN COMMON COUNCIL, }
March 20, 1905. }

Report accepted and placed on file in concurrence.

H. W. LITCHFIELD, CLERK.

REPORT OF BOARD OF PUBLIC WORKS:

LEWISTON, ME., March 20, 1905.

To the Honorable Mayor and City Council:

Conformably to the provisions of the Statute creating it, the Board of Public Works respectfully submits its first annual report.

By an Act of the Legislature approved March 24, 1903, and going into full effect on the third Monday of March, 1904, this Board was organized with the following personnel:

	Term expires.
Fordyce C. Farr, Chairman,	1905.
William B. Skelton, Mayor, ex officio,	1905.
Selden A. Cummings,	1906.
Harry Stetson, Secretary,	1907.
Warren H. Osgood,	1908.
Ernest W. Russell,	1909.
Horace Libby,	1910.

OFFICERS.

Superintendent—Charles H. Weymouth.

Assistant Superintendent—George H. Towle.

Clerk and Timekeeper—James A. Malloy.

When the Board was finally organized it was determined that the Superintendent should be elected to serve during the pleasure of the Board and should in turn be given full power in the selection of assistants and help. In other words he is to be entirely independent in the choice of his help and to be held responsible for the results.

The Board, however, while not reserving to itself any power in the selection of assistants and help, expressly stipulated that all such might be at any time discharged by the Board, if it saw fit, thus reserving the veto power wherever circumstances seem to warrant its exercise, but waiving all right to embarrass the Superintendent with assistants unsatisfactory to him.

The Board has felt that it was created with a view to eliminate partisan politics from this department so far as possible, and to conduct its business on a systematic, businesslike basis.

So far as possible the expense of running the Department has been cut down. This has been affected by a reduction in the number of subordinate officials and in the employment of more uniformly efficient help. When the work usually done in the summer months was completed, two of the foremen or bosses were discharged, with a saving of twenty-four dollars per week. The position of city carpenter was abolished and a competent all-round man has been employed, who could do the ordinary work required in that department, and when not needed there, take charge of a crew or do any other work required of him.

Instead of employing an extra man as night watchman at the city stable, a comfortable room was furnished there at reasonable expense, and the city feeder has slept there in order that he might be at hand in case of fire. When it has been necessary to send out separate crews for work, some competent member of a crew has been detailed to take charge of it and as far as practicable, to work with it. The drivers of single teams have been asked to assist their crews and in that way have often done away with the expense of one extra man.

The Department has had to go to considerable expense during the past year in the matter of repairing and rebuilding bridges, and has thus had to draw upon its appropriation to an extent which was not anticipated, even when the appropriations were made. This was especially true of the bridges over the canals.

When the real condition of the bridge of the Main Street Canal was discovered, the question of building a steel structure was seriously considered. The history of the life of this bridge and the estimates of cost of a steel bridge indicated, however, that a convenient wooden bridge could be kept there at no greater expense than the interest on the cost of a so-called permanent bridge, thus saving the first cost of the steel bridge, and the wooden bridge was rebuilt. This was widened and the north side straightened.

It has been the purpose of the Board to make such permanent improvements as the several appropriations would warrant, and to make the same with a view to a continuity of plan. In addition to the relaying of the paving on Main Street, made necessary by building the sewer during the preceding season, a portion of Park Street has been paved.

This followed the work of the previous year, when the distance from Pine to Ash Street was paved. During the coming year the paving of Park Street should be completed from the point where work ceased last summer to Ash Street. That will make a continuous strip from Pine Street to Main, and practically to the junction of Chapel and Lowell Streets. Paving should also be done on Cedar Street from Lisbon to the point where a previous administration stopped.

There is also need of immediate permanent work on Pine Street, raising the grade and installing macadam. Frye Street should also be macadamized for the entire length. This street is made particularly bad from the amount of water which comes from the mountain. Its condition would also be materially improved by removing a part of the trees. They have become so thick that very little sunlight and heat reaches the street proper.

Considerable has been done in sewerage. It was found necessary to extend the Jepson Brook sewer in order to avoid a condition threatening an epidemic from the deposit of refuse where the water in the brook was not of sufficient volume to carry it away readily.

The building of the new college dormitory made it necessary to extend the College Street sewer. That on Sylvan Avenue was also extended so as to accommodate other houses in that vicinity and to take care of the large quantity of surface water found there.

The Sabattus Street sewer should be extended as far as the grade of the street will permit, both on Sabattus Street and East Avenue. This is required not only for the accommodation of the houses there, but that the streets may be permanently improved. It is the intention of the Board to do so as soon as it is assured of the necessary appropriation. With this should go the building of a short sewer from Skinner Street along Sabattus toward the Sisters' Hospital for about two hundred feet. An early beginning should also be made on a sewer for Pettengill Street.

The proposed rebuilding of St. Peter's Church has brought up the question of reducing the grade of Bartlett Street hill. This is called for both in the interests of the architecture of the church and the convenience of travel over the hill. The managers of this enterprise and the Board have taken the matter up together and have reached

an understanding whereby the city is to reduce the grade of the hill two feet, the Church taking care of all questions of damage to abutters arising from the reduction, the cost of rebuilding the sidewalk by the Church and of lowering the city water pipes.

During the coming year it will be necessary to repaint the Lewiston end of the "North Bridge," to repair or rebuild the bridge at Crowley's Junction, and to complete the repairing of the Cedar Street canal bridge. Aside from this it is believed that little will be required on bridges.

While there are some unpaid bills in this Department, as is usually the case in all departments, a constant attempt has been made to cut them down, and it is believed that they will be found to be smaller in the aggregate than for a number of years.

For the information of the City Council and of the Board in the future, the following statistics are given as a part of this report, and the annual report of the Superintendent to the Board dealing with the year's report more in detail, is appended:

Report read, accepted, and ordered placed on file in concurrence.

H. W. LITCHFIELD, CLERK.

REPORT OF SUPERINTENDENT OF DEPARTMENT OF PUBLIC WORKS.

LEWISTON, ME., March 14, 1905.
Office of Supt. of Public Works.

To the Honorable Board of Public Works:

Gentlemen—I have the honor to submit the first annual report as Superintendent of the Department of Public Works, for the fiscal year, ending February 28, 1905, also an estimate of the appropriations necessary for the proper maintenance of the streets and roads and such other permanent improvements as may be ordered by the Board of Commissioners.

Following is a list of the amount expended in the different divisions for the past twelve months:

Highways,	\$37,876 86
Sewers,	4,092 88
Permanent walks,	2,031 95
Permanent streets and paving,	6,656 53
New streets and bridges,	6,006 41
	<hr/>
	\$56,664 63

SEWERS.

During the past year five new sewers, aggregating 1585 feet in length, have been built.

The following list gives the itemized cost of each sewer:

Sylvan Avenue sewer starts at the end of the old sewer and runs westerly to the junction of Sylvan Avenue and Green Street, a distance of 540 feet. 500 feet of 12-inch pipe sewer and 40 feet of 24-inch brick sewer. Total cost, \$763.81.

Excavation,	\$441 50
500 feet 12-inch pipe @ \$.33	165 00
1-12 inch T.,	4 50
1-12 inch, $\frac{1}{4}$ bend,	4 00

56 feet 6-inch pipe @ \$.13½,	7 56
100 bags cement @ \$.23¾,	23 75
38 loads sand @ \$.25,	9 50
8,000 bricks @ \$6.50,	52 00
Mason's labor,	35 00
3 basin stones @ \$4.00,	12 00
2 manhole stones @ \$4.50,	9 00
	<hr/>
	\$763 81

GULLEY SEWER.

Five hundred and fifty feet of 20-inch pipe sewer was built, starting on Main Street, near the stone culvert at the foot of the Pettengill Street, and running across the field to the railroad track. Total cost, \$664.30.

Excavation,	\$264 65
550 feet 20-inch pipe, @ 63c,	346 50
60 bags cement at 23¾c,	14 25
26 loads sand @ 70c,	18 20
1,200 bricks @ \$6.00,	7 20
Mason's labor,	7 00
1 manhole stone,	4 50
1 manhole cover,	2 00
	<hr/>
	\$664 30

COLLEGE STREET SEWER.

The old sewer on College Street was extended 185 feet, in order to drain the new dormitory at Bates College. Total cost, \$144.60.

Excavation,	\$76 70
185 feet 10-inch pipe @ 24¾c,	45 78
25 bags cement @ 23¾c,	4 72
4 loads sand @ 80c,	3 20
1,200 bricks @ \$6.00,	7 20
Mason's labor,	7 00
	<hr/>
	\$144 60

MAIN STREET SEWER.

A 12-inch pipe sewer was built on Main Street from the stone crossing at the foot of Pettengill Street, running southerly for a distance of 250 feet, and connecting with the new 20-inch pipe sewer. Total cost, \$207.60.

SUPERINTENDENT DEPARTMENT PUBLIC WORKS. 183

Excavation,	\$120 00
250 feet 12-inch pipe @ 33c,	82 50
8 bags cement @ 23 $\frac{3}{4}$ c,	1 90
4 loads sand @ 80c,	3 20
	<hr/> \$207 60

CLAY STREET SEWER.

The sewer on Clay Street was extended 48 feet. Total cost, \$36.95.

Excavation,	\$20.63
48 feet 12-inch pipe @ 33c,	15 84
2 bags cement @ 23 $\frac{1}{4}$ c,	48
	<hr/> \$36 95

Ten new catch basins have been built and connected with the sewer—1 basin on Elm Street, 1 basin on Newman Street, 1 basin on Ware Street, 1 basin opposite the Fair Grounds, 2 basins in Hines' Alley, 1 basin corner Ash and Shawmut Streets, and 3 basins on the Sylvan Avenue sewer. Two manholes were built on the Sylvan Avenue sewer and 1 manhole on the Gulley sewer.

All the catch basins in the city were cleaned out once, 60 basins were cleaned out twice and 20 basins were cleaned out three times and a number of basins repaired.

In the early spring \$100.00 was expended in repairing the sewer on Park Street in front of the Public Library.

A sewer cart was purchased for the purpose of carrying away the refuse matter taken from the catch basins, and it has been a great saving to this division and I would suggest the purchase of another for the coming season; the price of this cart was \$192.00. It costs \$6.00 a day to run this cart, or a saving of \$2.25 on every day's labor over the old way. The total amount expended in cleaning and repairing catch basins was \$1,066.87.

PERMANENT STREETS AND PAVING.

A part of Park Street was the only newly paved street, 1636 square yards of granite paving being laid, covering the distance from Main Street, to the stone crossing at the south end of Wade and Dunton's building; the total cost of this work was \$3,061.83.

Total city labor,	\$670 75
Paving blocks,	1,845 12
Freight on paving,	176 12
Sand and gravel.	157 15
Contract labor,	212 68
	<hr/>
	\$3,061 83

In 1903 the paving on lower Main Street was torn up in order to build a sewer and being too late in the season, the resetting was discontinued until 1904, as it was necessary to dig up all the paving, from the Main Street canal bridge to Hotel Atwood, or about 1400 square yards. This proved to be quite an expensive undertaking, as it was necessary to remove a large amount of broken ledge, caused by blasting and filling the same in with gravel; the total cost of this work was \$628.00.

Considerable repairing has been done in places where sewer, gas, and water connections have been made.

The entire macadam on lower Lisbon Street from Cedar Street to the Lewiston Bleachery, has been resurfaced and a new piece of macadam was built on Main Street, from Mountain Avenue to Ware Street; 1200 tons of crushed stone being used on this job. A strip of macadam was built on College Street, from Frye Street to Skinner Street, and crushed stone was spread in the alley running from Pine to Ash streets, between Horton and Howe streets.

A new stone crusher was purchased for the sum of \$675.00 to take the place of the old one and was in operation a number of weeks during the summer.

NEW STREETS AND BRIDGES.

Extensive repairs have been made on nearly all the bridges in the city proper.

The bridge on Mill Street was torn up and new beams and stringers put in and a new flooring of 2-inch spruce plank. The total cost was \$378.27.

Labor,	\$139 00
Material,	239 27
	<hr/>
	\$378 27

The walks on Broad Street bridge were replanked with 2-inch plank. Total cost, \$315.46.

SUPERINTENDENT DEPARTMENT PUBLIC WORKS. 185

Labor,	\$103 43
Material,	212 03
	<hr/>
	\$315 46

The bridge on College Road, south of Fair Street, replanked. Total cost, \$25.53.

Labor,	\$7 75
Material,	17 78
	<hr/>
	\$25 53

Lincoln Street bridge over No. 1 canal replanked. Total cost, \$71.02.

Labor,	\$11 25
Material,	59 77
	<hr/>
	\$71 02

The Main Street canal bridge was thoroughly overhauled and widened six feet. The old beams and piers were taken out and new ones of hard southern pine put in. The flooring is of 4-inch kyanized spruce and 3-inch spruce plank. The old railing was taken off and a new one of spruce and cypress put up, making the bridge practically the same as new. The Chestnut Street and Cedar Street bridges received about the same repairing; new beams and stringers of hard pine were put in and a new flooring of kyanized spruce plank was laid on the Cedar Street bridge. The walks on the Chestnut Street bridge were replanked. It was at first thought that the repairs on the bridges would not be very large and only a sufficient amount of money was appropriated to carry on the repairing. But this important matter received the prompt attention of the Superintendent and the Board of Commissioners, and it was at once decided to rebuild all the bridges that were in any way unsafe and put them in safe condition for public travel.

The total cost of repairing these three bridges was: \$3,963.71. The bridge on Oxford Street was replanked and new stringers put in and a number of bridges in the country were replanked and the stone work repaired.

In the spring of the year the water from the river would wash in on the old Switzerland Road, caused by the construction of the new dam at Deer Rips, making the road low

and muddy and unpleasant for people traveling over it to get in and out of the city. In 1902, the County Commissioners laid out a new road, but this action was never carried into effect, until 1904, when the old road was discontinued and a new one built, a distance of very near 80 rods; the cost of building this road was \$680.00; \$75.00 of this amount was spent in building stone culverts.

PERMANENT WALKS.

About 9,900 lineal feet of ash walks were built in the following places: Noble Street, 50 feet; Webster Street, 1,200 feet; Sabattus Street, 2,100 feet; Ware Street, 300 feet; Lincoln Street, 150 feet; Pine Street, 285 feet; College Street, 800 feet; Birch Street, 550 feet; Middle Street, 50 feet; Gove Street, 1,800 feet; Sylvan Avenue, 800 feet; Skinner Street, 150 feet; Vine Street, 150 feet; East Avenue, 215 feet; Lisbon Road, 285 feet; Main Street, 800 feet; Lake Street, 200 feet; and in a great many places, old walks were recoated and rolled.

Eight hundred and thirty-five lineal feet of new granite curbing, 2 feet wide and 6 inches thick, has been set in different parts of the city; 98 feet on West Rose Hill, 285 on Mill Street, 269 feet on Park Street, 60 feet on Cedar Street, 70 feet on Oak Street, 29 feet on Bartlett Street, 24 feet on Main Street; a stone crossing 34 feet long was laid on Bartlett Street, across Walnut Street; a stone crossing 30 feet long on Canal Street in the rear of Hall & Knight's; a stone crossing 38 feet long on Holland Street across Oak Street; a stone crossing 72 feet long on Summer Street in front of Joseph Walsh's; a stone crossing 50 feet long on College Street, corner of Skinner Street, and a double stone crossing 60 feet long on Park Street, across Maple Street.

The walk on Lisbon Street, from the Journal Building to the Trust Building, was torn up and relaid. The concrete walks on the corner of Howe and Sabattus Streets, was torn up and a new brick walk built. The concrete walk on Oak Street, above Sabattus Street was torn up and a brick walk replaced. The walk on Lisbon Street from Ash Street to E. S. Paul's store was torn up, the curbing reset and walk relaid; about 1,800 lineal feet of curbing and flagging has been reset and the walks in these places repaired.

HIGHWAYS.

The appropriations and receipts for highways the past twelve months were \$37,886.06.

SUPERINTENDENT DEPARTMENT PUBLIC WORKS. 187

Of this amount the following sums were taken out, consisting chiefly of the running expenses of the Department.

Lights,	\$52 53
Three horses,	720 00
Road machines,	204 00
Repairing carts,	812 68
Repairing harnesses,	279 83
Shoeing and repairing,	819 29
Land rent,	480 00
Salaries of permanent men,	9,574 80
Feed and grain,	2,924 92
Hauling snow,	2,000 00
Collecting waste,	3,000 00
Sweeping paving,	1,650 00
	<hr/>
	\$22,518 05
Country work,	4,131 13
	<hr/>
	\$26,649 18

The above amount taken out of the general receipts for highways will give us a balance of \$11,236.88, on which to do all the repairing that may be necessary on about 33 miles of highways in the city proper, besides paying for all the minor supplies for the Department such as hardware supplies, tools, etc. This amount as you will see is a very small sum on which to carry on this work. A saving of \$2,377 has been made by reducing the number of permanent men in the office and stables.

Extensive repairs in highways have been made the past year in the city proper and roads leading into the city. Lisbon Road has been turnpiked and graveled in several places; the gutters put in good condition and in some places the road was widened making the traveling good as far as the city limits.

Sabattus Road from Thorne's Corner to the George Eadon place has been widened, about six feet being taken off the banking on the northerly side of the road and the road bed rounded up and graveled at an expense of \$210.50. This piece of work has met with the approval of all persons coming into the city over this road.

During the winter season the snow would drift in on the road near Mitchell Hill making it necessary to break and shovel it out quite often at a large expense. In the fall of

the past year, a fence was built on the north side of the road preventing these drifts and saving the Department a large amount of money and labor.

The outside districts have been well cared for, for the past year; the road machine has worked in every district from one to three days, putting the roads in good condition and widening the gutters. A large amount of gravel was put on these roads, in fact I think it is safe to say that better results were obtained by the work on these roads the past year, than during any previous year. We have 32 agents to look after this country work and the total amount expended was \$4,131.13, or \$129.10 for each agent for the entire year.

The following streets have been turnpiked and graveled in the city proper. Ware Street, from Main Street to College Street; Birch Street, from Bates Street to Lisbon Street; Main Street from Bates Street to Blake Street; and Hospital Square; Sabattus Street from Wood Street to Central Avenue; and from East Avenue, to Dr. Garcelon's; Oak Street from Middle Street to Blake Street; Bartlett Street from Ash Street to Walnut Street; Chestnut Street from Lisbon Street to Canal Street; Blake Street from Oak Street to Ash Street; Bates Street from Spruce to Maple Street; Elm Street from Main Street to College Street; and High Street from Hammond Street to Lowell Street.

The streets picked up and rolled with the steam-roller are as follows: College Street from Frye to Skinner Street; Lisbon Street from Cedar Street to the Bleachery; Sabattus Street from College Street to Central Avenue; Main Street from Bates Street to Union Street; Park Street from Chestnut to Birch Streets; Holland Street from Maine Street to the railroad track; Oak Street from Middle Street to Union Street; Pierce Street from Ash to Pine Streets; Bartlett Street from Ash to Walnut Streets; Main Street from Mountain Avenue to Ware Street; Wood Street from Sabattus Street to Holland Street; and High Street from Hammond Street to Lowell Street.

In the spring, the snow and ice is removed from the alleys. The paving is cleared of all the ice and slush and kept in good condition during the summer. This is done at a large expense. Two teams are required to collect the rubbish, one team working all the year and the other working four days a week.

A large amount of money is required in handling this snow, although the past winter was rather favorable up to the middle of December. The storms that followed were

severe and a lot of breaking was required, making the expense for hauling the snow and ditching the gutters up to the first of March about \$2,000.00.

When the teams are not engaged in road breaking, and hauling snow, they are employed in hauling gravel from the city pit and depositing it in the following places, making it convenient for early use on the streets in the spring. Tool House, 750 loads, Lisbon Street in front of Maple Street, 525 loads of stone and gravel. Stone crusher, 385 loads of stone. Ash Street 750 loads of stone and gravel and 200 loads on Lisbon Road near Cloutier's. A large quantity of ashes was hauled from the several corporations.

An estimate of the appropriations which I think will be necessary to carry on the operations of this department for the ensuing year is as follows:

Highways,	\$38,000 00
Sewers,	5,000 00
Permanent walks,	3,000 00
Permanent streets and paving,	10,000 00
New streets and bridges,	3,000 00

Inventory of the property belonging to the Department of Public Works February 28, 1905:

4 stoves and fixtures; 2 roll-top desks; 3 office chairs; 3 common chairs; 1 book-case; 2 oil tanks; 1 iron vise; 1 wooden vise; 1 set of wooden patterns; 1 anvil; 1 keg of spikes; 2 cart-jacks; 1 grind stone; 1 steam roller; 1 lot of old pipe, various sizes; 1 catch-basin form; 6 old wheelbarrows; 1 dozen new brooms; 1 box hand drills; 1 set sewer rods; 1 steam drill; 1 cart set; 1 endless chain and fall; 6 new pails; 1 box rubber belting; 2 short ladders, 2 scythes; 9 wooden rakes; 24 hoes; 6 stone forks; 18 augers; 1 post-auger; 3 long-handled shovels; 2 paving rammers; 2 levels; 1 three-bushel basket; 30 lanterns; 1 jigger; 1 steam-roller plow; 2 steel plows; 1 old wooden plow; 1 paving plow; 1 street sweeper; 1 street sprinkler; 1 blacksmith's forge; 1 blacksmith's kit; 1 double stone roller; 1 single stone roller; 1 road breaker; 1 snow leveler; 1 stone crushing plow; 1 sewer cart; 12 pieces 20-inch pipe; 1 express wagon; 1 single horse sweeper; 1 harrow; 1 hayrack; 2 road machines; 2 snow scrapers; 13 snow plows; 1 set scales; 1 iron spring bed and bedding; 6 tons hay; 2 tons straw; 20 horses; 11 catch-basin grates; 2 manhole covers; 3 dirt scrapers; 1 stone drag; $\frac{1}{4}$ barrel grease; 2 brooms for sweeper; 2 new tool boxes; 3

old tool boxes; 1 pair horse clippers; 1 hay fork; 1 sewer pump; 1 pung; 4 pairs rubber boots; 11 sets beveled harness; 12 double dump-carts; 3 single dump-carts; 5 sets single harness; 4 tons hay, hook and ladder; 2 tons hay brick stable; 1 extension ladder; 4 new whips; 3 new main brushes; 18 boxes castile harness soap; 16 sponges; 25 picks; 12 grubs; 2 wrenches; 1 adze; 1 square; 4 hammers; 4 saws; 1 bitstock; 3 axes; 6 crowbars; 6 cantdogs; 4 topmalls.

Before concluding the record of the work done by the Department of Public Works, I wish to state that it has been our highest ambition to give to the public in general, the best services that are possible; and as far as we have been able to learn, I think we have succeeded in accomplishing that purpose. I also wish to thank His Honor, the Mayor, and the members of the Board of Public Works, for the assistance and courtesy which they have always been ready to extend to the officers of this Department. To the various assistants in this Department, I am especially indebted for the skill with which they have performed the duties intrusted to them.

Respectfully submitted,

CHARLES WEYMOUTH,

Superintendent of Department of Public Works.

IN BOARD OF MAYOR AND ALDERMEN, {
March 20, 1905. }

Report read, accepted, and ordered placed on file.

Attest:

J. F. SLATTERY, CITY CLERK.

IN COMMON COUNCIL, {
March 20, 1905. }

Report read, accepted, and ordered placed on file in concurrence.

H. W. LITCHFIELD, CLERK.

REPORT OF LIQUOR AGENT.

LEWISTON, ME., March 11, 1905.

To the Honorable Mayor and Aldermen :

The undersigned respectfully submits the following report of sales of liquors from March 10, 1904, to March 11, 1905, each inclusive:
